SUMMARY

Results-driven Mobile Application Architect and Tech Lead with 5.5+ years of expertise designing, building, and deploying scalable cross-platform applications (Android, iOS, Web, Desktop). Proven track record of spearheading engineering teams, optimizing application performance, and implementing robust state-management architectures. Expert in Flutter, Dart, Python FastAPI, and cloud integrations (AWS/Firebase). Seeking a Mobile Application Team Lead role to drive high-impact technical strategy, mentorship, and enterprise-grade software delivery.

CORE TECHNICAL SKILLS

Mobile & Architecture

Flutter, Dart, Clean Architecture, MVVM / BLoC
State Management, WebSockets, CI/CD Pipelines,
Cross-Platform Strategy, Native Integration
(APNs), Performance Optimization

Backend & Cloud

Python FastAPI, RESTful API Design, Firebase
(Auth, Firestore, GA4 Analytics), AWS Cloud
Deployment, Postman

Databases & Tools

MySQL, SQLite, Hive, Git, VS Code, Linux, macOS,
Windows, HTMX, Jinja2 Templates

Web & Languages

React Native, HTML5, CSS3, JavaScript, Cross-
Platform Desktop Development

PROFESSIONAL EXPERIENCE

CTO and Mobile Arch - Founder | Faithnet Technologies Pvt Ltd

July 2024 - Present

- Architected end-to-end 'Fellow Founder' cross-platform mobile application and secure Python FastAPI backend infrastructure.
- Orchestrated seamless multi-platform deployments across Apple App Store and Google Play Store with rigorous release management.
- Designed responsive administrative dashboards using HTMX and Jinja2 templates to enhance operational tracking and reporting.
- Mentored technical interns on agile mobile/web development workflows, code quality standards, and architectural best practices.
- Engineered an advanced custom OCR processing module for high-accuracy physical visiting card to digital vCard conversion.
- Drove holistic product strategy encompassing technical architecture, performance tuning, and cross-channel marketing initiatives.

Senior Flutter Developer | Mind Origin Technology

Jul 2023 – July 2024

- Led a high-performing 3-person Flutter engineering team for a high-volume financial trading application.
- Owned the end-to-end feature delivery lifecycle from technical scoping and wireframe evaluation to production deployment.
- Engineered complex real-time features including low-latency WebSocket data streaming and optimized custom financial charts.
- Conducted thorough unit testing and code refactoring to drastically minimize application crashes and memory leaks.

Flutter Developer | Connective Links Technology

Jul 2022 – May 2023

- Specialized in native iOS platform integration (APNs) within Flutter frameworks to guarantee peak execution speed.
- Contributed to feature enhancement, bug resolution, and API synchronization for enterprise e-commerce applications.
- Collaborated with UI/UX teams to translate complex design specs into responsive, pixel-perfect mobile layouts.

Junior Flutter Developer | Excrin Thinklabs

Jun 2021 – Jun 2022

- Initiated professional career in mobile development by building, testing, and supporting modular Flutter applications.
- Integrated third-party REST APIs, local databases (Hive/SQLite), and authentication modules into production builds.
- Assisted senior engineers in identifying and debugging cross-platform rendering inconsistencies.

Flutter Developer Intern | Excrin Thinklabs

Jan 2021 – Jun 2021

- Assisted in constructing foundational Flutter UI widgets and implementing clean component-driven state architecture.
- Participated in daily agile standups, code reviews, and foundational training on mobile application lifecycles.

KEY FLAGSHIP PROJECTS

Firststock Trading Application (Dart, Flutter, Firebase, WebSockets, Flutter Web)

Designed custom graph packages and high-frequency data streaming logic via WebSockets to handle massive real-time financial feeds safely.

Fellow Founder (Flutter, Python FastAPI, REST API, Firebase, AWS)

Architected end-to-end mobile application and scalable cloud backend securely deployed on AWS infrastructure with robust encryption.

The Qur'an Multilingual (Flutter, GitHub APIs, APNs)

Delivered unified cross-platform architecture supporting Android, iOS, Windows, Linux, and macOS with dynamic content fetching.

GDO Gifts & Cake Gallery (Flutter, Firebase, Flutter Bloc, Material UI 3)

Developed production-ready e-commerce platforms utilizing Material UI 3 design principles and GA4 event tracking.

EDUCATION

MCA (Distance Education) | Annamalai University (2021 – 2023)

BCA | Apollo Arts and Science College (2018 – 2021)
